

# “The Problem Solvers”

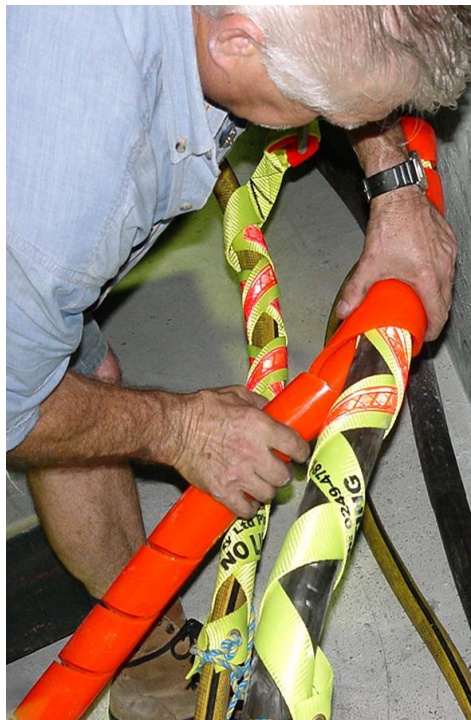

Supplying Specifically Designed and Created Problem Solving Solutions.

**Problem:** Cable Sheath Damage / Tangled Hoses

1. Cable Scuffing against Rib.
2. Loose cables and hoses getting tangled.
3. Falling Debris e.g. Coal Damaging Cable.

**Solution:** Poly Spiral Wrap P/No 0036

1. FRAS Polyurethane high wear resistance protects cable sheath.
2. Holds smaller diameter cables and hose together preventing tangling.
3. Easy to Use 1 meter Lengths.
4. Covers Cable diameters 35 - 70 mm

**PPE to be worn at all times**
